16<sup>th</sup> March 2023

## British Science Week 2023

Dear Parent/Guardian,

This week, the children have taken part in a range of activities to celebrate British Science Week 2023. The theme this year has been 'Connections', and each class has explored this in a different way. There are many connections in science, including how our body parts are connected and work together, the connection between our actions and environment, and even how the internet connection has changed the world.

We would like to give the children the opportunity to enter a national **poster competition** as part of British Science week. To enter, the children need to submit a poster of A3 or A4 size. The judges look for:

- Creativity in approach – an innovative angle on the content or creative interpretation of the theme,
- Content – clear, accurate and informative about a STEM topic,
- Effective communication- presented and communicated in an effective way.

The prizes this year range from family museum tickets to animal adoption packs. If your child would like to take part in the competition, their entry needs to be given to their class teacher no later than **Monday 27<sup>th</sup> March**. Any entries handed in after this date will not be submitted.

For more information about British Science Week 2023, or the poster competition, please visit <https://www.britishscienceweek.org/>.

Thank you,

Miss Woodward.
