Human Reproduction and Ageing

In the Human Reproduction and Ageing project, your child will learn what life cycles are, order the stages of life cycles for different animal species and compare them. They will learn what mammals are and the five key mammalian characteristics. They will sort vertebrates, deciding whether or not they are mammals. They will look closely at different mammalian life cycles and make comparisons. They will investigate the relationship between the mass of mammals and how long they carry their young by creating and interpreting scatter graphs. They will learn about the stages and processes of the human life cycle. They will learn about human gestation from embryo to birth. They will investigate how humans change and develop from infant to adolescence in the juvenile stage. They will learn about the changes that happen during puberty. They will interpret data about human growth and learn about the human reproductive system and sexual reproduction. They will learn about how humans change as they get older. They will investigate how ageing affects reaction times.

Topic:

In the Sow, Grow and Farm project, your child will learn about allotments in the United Kingdom and how the government encouraged people to have them to support food rationing during the Second World War. They will learn about food webs and animal life cycles, including how living things are dependent on one another within a habitat. They will investigate the different ways that plants reproduce and will dissect flowering plants to identify the different structures. They will have the opportunity to learn about farming in the United Kingdom and the techniques used in modern farming, including the challenges that farmers face. They will learn about the benefits of eating seasonally and about the pros and cons of importing food. They will also learn about world farming and how the different climate zones affect where different foods can be grown.

Relationships

Throughout this unit your child will learn about:

Know who they are as a person in terms of characteristics and personal qualities.
Understand the belonging to an online community can have positive and negative consequences.
Understand rights and responsibilities in an online community or social network.
Explaining how to stay safe when using technology to communicate with my friends.
Rights and responsibilities when playing an online game.
Recognise when too much time is being spent online (screen time).

Changing Me

Throughout this unit your child will learn about:
Awareness of own self-body and how my body image fits into that.
Explain how a girl's body changes during puberty and understand the importance of looking after yourself both physically and emotionally. Explain how boys and girls bodies change during puberty. Understand that sexual intercourse can led to conception and that is how babies are usually made. Also, that some people may need IVF to help them have a baby. Identify what they are looking forward to about becoming a teenager and understand this brings growing responsibilities (age of consent).
