This unit builds on the children's learning from the Year 3 Rocks unit as well as the Animals including Humans and Living Things and their Habitats units. As such, it is important that children have the appropriate understanding of fossils, habitats and human development in order to grasp the concepts and ideas presented to them in these lessons. Children will learn about variation and adaptation. They will be able to explore how both Charles Darwin and Alfred Wallace separately developed their theories of evolution. They will examine the scientific evidence from plants and animals that has been gathered to support the theory of evolution.

Topic:

A siren sounds, a building crumbles, a Spitfire zooms overhead. Take cover! It's 1939 and Britain is at war. Deep down in the Anderson shelter, learn why nations are fighting and why child evacuees must make the long journey from their homes and families into unknown territory. Read the diary of Anne Frank, written whilst hiding from the terrifying stormtroopers in a secret annexe, and try to empathise with her hopes and fears. Make do and mend – cook up a family meal from meagre rations. Delve deep into a bygone era, when loose lips sank ships. And, as peace is declared, let's get ready to celebrate. Mr Churchill says 'It's an unconditional surrender!'
